

Your bottle baling solution

Specially designed to bale types of hollow products such as PET bottles, disposable plastic tableware, HDPE/PP jars, And cans,. The extended stroke of the ram/cylinder ensures Full and optimal compaction, including the bottles at the bottom. Choose from our existing models or contact us for customized Models today to meet your specific baling Demands.

BOTTLE BALER

SERIES 1 // SVBB2-300 . SVBB2-400 . SVBB2-500 . SVBB2-700

CUSTOMIZED // MADE-TO-ORDER MODELS ARE AVAILABLE

FEATURES

Auto Chain Bale Ejector

efficiently pushes finished bales out of the compressing chamber

Longer Stroke

for efficient and full compaction of every hollow article in the bale

Liquid Collector Tray

is optional for collecting left over liquid in the bottles

Specifications

MODEL	SVBB2-300	SVBB2-400	SVBB2-500	SVBB2-700
Compressing force	30Tons	40Tons	50Tons	70Tons
Feed opening size (L * H)	800*400mm	1000*500mm	1100*500mm	1500*600mm
Bale size	800*600*(200-800)mm	1000*600*(300-900)mm	1100*700*(400-1000)mm	1500*760*(500-1000)mm
Compressing chamber size	800*600*1200 mm	1000*600*1400 mm	1100*700*1500 mm	1500*760*1600 mm
Bale weight (approx.)	35-120kgs	60-180kgs	100-300kgs	200-400kgs
Voltage (customizable)	220-480V, 3phase, 50/60Hz	220-480V, 3phase, 50/60Hz	220-480V, 3phase, 50/60Hz	220-480V, 3phase, 50/60Hz
Power	7.5kw	7.5kw	11kw	15kw
Machine weight (approx.)	1250kgs	1650kgs	1900kgs	3000kgs
Overall dimension	1280*900*3000mm	1480*900*3400mm	1580*950*3600mm	1900*1050*3700mm

* Unit bale weight depends on the material used and bale size you adjust
